PROFESSIONAL EXPERIENCE

Software Developer | Skymantle Technologies | Remote | 2021-2023

- Developed and maintained software applications and supported feature improvements in a team-based environment.
- Troubleshoot application issues, reviewed errors, tested changes, and helped improve reliability and usability.
- Worked with structured information and technical documentation while communicating problems and solutions clearly.
- Collaborated with team members through code review, testing, and implementation of software changes.

Customer Service Associate | Toys"R"Us | Markham, ON | 2018-2019

- Assisted customers with purchases, questions, and concerns in a high-volume retail environment.
- Supported organized product displays, merchandise presentation, returns, and stock-related tasks.
- Worked with teammates to maintain service standards and support store goals while managing multiple priorities.

Kitchen Support Staff | East Side Mario's | Markham, ON | 2017-2018

- Supported food preparation, ingredient restocking, and day-to-day kitchen operations in a fast-paced environment.
- Maintained clean, organized, and safe work areas and followed established sanitation and operating procedures.
- Completed time-sensitive tasks efficiently while supporting team members during busy service periods.

COMMUNITY & VOLUNTEER EXPERIENCE

Volunteer Facilitator | Salvation Army Markham Ministries | Markham, ON | Feb. 2025-Present

- Facilitate weekly English conversation circles for groups of 10+ newcomers, creating a welcoming and respectful environment.
- Use patience, clear communication, organization, and active listening to help participants build confidence.
- Work respectfully with people from diverse backgrounds and adapt communication to different needs.

Volunteer | Salvation Army Thrift Store | Markham, ON | June 2023

- Supported customer service and store organization while helping maintain a welcoming retail environment.

SELECTED TECHNICAL PROJECTS

Portfolio Website

- Designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript to showcase projects and technical skills.

Habit Tracker

- Built a JavaScript habit tracker with daily tracking features and persistent local storage data.

Expense Tracker

- Developed a JavaScript expense tracker with categorized spending and real-time updates.

Random Joke Generator

- Created a web app that retrieves and displays content from external APIs using asynchronous JavaScript.

Password Generator

- Built a customizable password generator with user-defined criteria.

EDUCATION

Bachelor of Computer Science | Seneca Polytechnic | Toronto, ON | In Progress | Expected 2026

- Computer Science education with hands-on programming, software development, databases, testing, and problem solving.

CERTIFICATIONS & LANGUAGES

- Tobii Dynavox Certificate (2025)
- Smartbox Academy Certificate (2025)
- English - Fluent
- Spanish - Beginner

ADDITIONAL STRENGTHS

- Comfortable learning new technologies, procedures, products, and workflows quickly.
- Strong combination of technical, customer-facing, and hands-on experience suitable for software, support, sales, retail, operations, and service roles.
- Professional, dependable, and comfortable working independently or as part of a team.
